

Living Naturally is the largest online natural health network in the world, providing online commerce and promotional systems to more than 3,000 natural health retailers and suppliers in North America.

Living Naturally has been working with numerous leasing companies in the past, but found that Matrix Business Capital provided the best, most reliable and accurate leasing service available. Their timely manner, professionalism and excellent customer service led Living Naturally to use Matrix as their primary lease broker. Their ability to quickly evaluate and approve deals, follow up; work closely with our most valued customers is highly outstanding in the leasing industry. Matrix does not only provide the best leasing experience for their clients, in the meantime it also creates "Raving Fans"- a core value to Living Naturally. Our company would highly recommend Matrix Business Capital to anyone.
