To Whom It May Concern:

I worked with Rodney Rambo at Matrix Business Capital on a lease transaction. Based on the great service I received from Rodney I will always call him in the future when I have equipment to finance. He communicated with me every step of the way and was always up front with me. As challenges came up he quickly communicated what was going on and how to rectify the situation. He answered all of my questions right away and if he didn't know he would come back with the correct information. I was always able to get him live as he starts his day as early as 5am PST and stays until 6pm PST. I am confident that I will be working with Rodney and Matrix in the future.

Sincerely,
