To whom it may concern,

I am the owner of Professional Grounds Care; I have been in business for 15 years. Business Solutions helped me finance three Toro Lawn Mowers at \$20,000.00

I have been in acquaintance with Matrix off and on for 8 years, recently I needed to purchase new lawn mowers, and due to the recent state of the economy I was unsuccessful in securing a loan through other finance sources. I contacted Matrix and they were able to assist me and guide me though the process efficiently and in a professional manner. I would recommend them to others and plan on contacting them first if ever a need arises for financial assistance with my business.
